Installation/Uninstallation Procedure

For a detailed installation/uninstallation procedures, refer to the SYSMAC Gateway SDK Installation Guide on the CD-ROM.

Precautions when Installing the SYSMAC Gateway SDK

- The SYSMAC Gateway SDK cannot be installed from a network drive, such as a CD drive or hard disk drive shared on a network. Always install the SYSMAC Gateway SDK from a CD drive on the computer onto which the software is being installed.

User Registration Procedure

After confirmation of "Software License Agreement" perform user registration before using the SYSMAC Gateway SDK.

Online User Registration (Internet Connection Required)

Access our website at the URL below for the online user registration. A user ID will be issued immediately.

<https://www.omron-cxone.com/license>

Enter the information required for user registration according to the site windows.

After completion of registration, registration confirmation will be sent to the email address input during the registration procedure.

- Note:**
- Use the product key and license number given on the Software License Agreement/ User Registration Card provided with the SYSMAC Gateway SDK.
 - Do not register more than once. For example, if you have returned the card, do not register online.

Using the User Registration Postcard

Enter the required information on the User Registration Postcard provided with the SYSMAC Gateway SDK and send the card.
